✉ bookings@artroute.capetown

On this tour we want to show the side of township life usually not talked about, the hopeful inspirational stories of people who managed to defy all odds. On this tour you will witness firsthand how the system of separation, segregation and discrimination implemented during the Apartheid years in South Africa has left so many with very little prosperity, but we will also take you to meet the success stories and hopeful individuals who managed to rise above their circumstances and empower their communities. You will be accompanied by a local guide from Khayelitsha to ensure the guests safety.

Areas of interest

- Ratanga Junction (The informal part of Khayelitsha)
- Khayelitsha Community Centre and Lookout Point
- Sikis - coffee roastery
- Gangster's Museum
- The Spinach King (At the Khayelitsha Mall)

NB: Khayelitsha is a sensitive area because of the high levels of poverty and the social political climate in South Africa. For this reason, this tour will only be offered when we feel that it is safe to take clients to visit the area. We will put all measures in place to ensure the safe visit to this area, but we will not be held liable if an unforeseen incident do incur on a township tour.
